On your child's birthday you may bring treats for the classroom. **Due to health code, treats must be store bought and in the original container.** We enjoy celebrating each child's birthday and would love for you to send pictures of your child on their birthday. Please include a photo from their birth and one for each birthday they have had. Please coordinate birthday celebrations with your child's teacher.

Classroom News

Thank you for bringing oranges last month...the children loved squeezing oranges to make juice. So pure & tasty with no sugar added and an extra punch of vitamin c during cold & flu season. We will keep that work out during February as well so feel free to send in an orange or two.

Science Experiments

Everyone is encouraged to bring a science experiment to school. There are easy, kid friendly science experiments that you can find online, or you can ask your child's teacher for some ideas. The children should come to school with ALL the necessary supplies. They should also practice at home so they are familiar with what the results should be and be able to relate the scientific principle behind the experiment. For example, when you mix vinegar and baking soda it creates a gas or fizz or bubbles. (Simple and kid friendly terms).

All students
in Miss Julie's class
need to present an
experiment this year.
